

PROFESSIONAL SUMMARY

Results-driven Cyber Warfare Officer and offensive security specialist with an active TS/SCI clearance. Proven background in penetration testing, threat emulation, adversary vulnerability assessment, and mission-critical network hardening. Combines military operational leadership and tactical signal insights with an advanced educational foundation in Artificial Intelligence and Cybersecurity.

TECHNICAL CORE COMPETENCIES

Offensive & Defensive Cyber: Penetration Testing, Threat Emulation, Vulnerability Assessment, Kali Linux, Wireshark, Metasploit, Active Directory Security, Nmap

Systems & Infrastructure: Windows Server, Windows 11, Linux (Kali, Ubuntu, RHEL), Virtualization (VMware, VirtualBox), Tactical LAN/WAN (SIPR/NIPR)

Programming & Analytics: Python, Java, C, Bash, Machine Learning, Artificial Intelligence Architectures, Version Control (Git)

Compliance & Operations: NIST CSF, NIST SP 800-30/37/39, HIPAA Compliance, Risk Assessments, IT Security Audits, ServiceNow

PROFESSIONAL EXPERIENCE

Cyber Warfare Officer — North Carolina Army National Guard

Raleigh, NC | May 2026 – Present

- Defend critical state agency infrastructure and enterprise communications by monitoring active threats and mitigating unauthorized intrusions.
- Execute vulnerability assessments and recommend operational security countermeasures to reinforce state network survivability.
- Coordinate high-tempo mission response workflows across cross-functional cyber incident response and defensive teams.

Teaching Assistant — Software Development Capstone — UNC Charlotte

Charlotte, NC | Sep 2026 – Present

- Audit semester-long software architecture and source code submissions for senior engineering capstone cohorts.
- Enforce secure software design patterns, dependency management standards, and Git version control workflows.

Cadet Battalion Leader / Head of Training — Army ROTC

Rochester, NY | Aug 2022 – May 2026

- Directed a 10-person operations staff to execute large-scale field exercises for 90+ personnel, overseeing mission logistics and communications.
- Supervised a 4-person training cadre to conduct tactical readiness labs, mentoring junior cadets in high-pressure decision frameworks.

Cybersecurity Auditor & Consultant — Rural Outreach Center

Buffalo, NY | Sep 2025 – Dec 2025

- Executed a comprehensive enterprise security audit and risk assessment, delivering a 3-year digital resilience and hardening roadmap.
- Benchmarked policies against HIPAA compliance standards and integrated two security software platforms to close data exposure gaps.

Signal Intern — U.S. Army

Wiesbaden, Germany | Jul 2025 – Sep 2025

- Evaluated high-availability tactical LAN/WAN architectures (SIPR/NIPR) deployed to sustain theater-level joint mission command.
- Assessed tactical cryptographic mechanisms and secure transmission channels utilized during multinational coalition operations.

ITS End User Support Intern — New York State Insurance Fund (NYSIF)

Syracuse, NY | May 2024 – Aug 2024

- Resolved 400+ ServiceNow support incidents and configured, secured, and deployed 100+ Windows 11 enterprise workstations.
- Audited endpoint inventories and verified asset records for 300+ systems in support of annual IT compliance reviews.

EDUCATION

M.S. in Artificial Intelligence**University of North Carolina at Charlotte**

Expected May 2027 | Charlotte, NC

B.S. in Cybersecurity (Minor: Business Admin)**Rochester Institute of Technology**

Graduated May 2026 | Magna Cum Laude

CERTIFICATIONS & HONORS

- CompTIA Security+
- ISC2 Certified in Cybersecurity (CC)
- CompTIA AI Essentials | CySA+ (In Progress)
- Elite Athlete (OCR): World Championship Qualifier (2024–2026)
